THE DAILY SENTINEL.

C. L. MAC ARTHUR & D. M. KEELER, EDITORS.

Monday Morning, December 16.

The United States Senate.

☞ It appears to be very generally understood that the Hon. Daniel Webster is to go to the U. S. Senate, from Massachusetts. We sincerely hope that the Hon. Henry Clay may be prevailed upon to become a member of this august body. With such champions of liberty as Clay, Webster, and Adams, in the councils of the nation, the destructive spirit of locofocoism would be confined within comparatively narrow limits.

Ex-President Van Buren is spoken of as a probable candidate for the U. S. Senatorship from New York. We know of no member of the locofoco party in that state whom we would prefer to see elected over Mr. Van Buren.—His opinions on the Texas question are eminently conservative, and in the years of his decline he might possibly atone in part for his past political transgressions, by rebuking some of his party leaders in their ruinous schemes of Annexation.

Hon. John M. Clayton is to be sent to the U. S. Senate from Deleware in place of the Hon. R H. Bayard.

Hon. Thomas H. Benton has been re-elected to the U. S. Senate, for the next six years from Missouri. A portion of the party made violent efforts to throw the Col. overboard. They could not affect it however.

We are somewhat surprised to learn that there is a possibility of our losing the U. S. Senate. As parties now stand, the whigs have twenty-six members, the locofocos twenty five, one Senator is yet to be elected from Virginia to make out the full number of members. The Whigs had two majority in the Legislature of Virginia, but one is reported to have gone over to our opponents, and another is pledged to act according to the instructions of his constituents, a majority of whom are locofocos. One locofoco is reported to have come over to the whigs. As Virginians of late years cannot be depended upon, it becomes a matter of doubt whether a whig or locofoco will be elected.—Should it be the latter, the casting vote will fall upon Hon. George M. Dallas, from whom we of course have nothing to expect.

Hon. George W. Somers is spoken of as the probable whig candidate for United States from Virginia.

The probability now is that the next Senate will contain more talented and distinguished members than it has for a number of years

It is said that words hurt nobody, nevertheless Sampson *jawed* a thousand Philstines to death.

The total amount of Jews throughout the world is estimated at 3,163,800, and it is said that this number has never materially varied from the time of David downwards.

Cincinnati with her adjacancies, now numbers 94000 inhabitants, Her annual increase for the last four years has been equal to 11 per cent, At this rate her population will double in seven years and a half. Should she continue to increase in this ratio for the next ten years she will have a population of over two hundred thousand inhabitants.

The oldest church now standing in the United States is 164 years old. It is yet in a remarkable state of preservation. It is situated at Hingham, New England.

A house painter in New York, says an exchange, grained a door in such exact imitation of oak that last year it put forth a quantity of leaves and grew an excellent crop of acorns.

A writer in the National Intelligencer, speaking of the morality of the Parisians says: "Full one third of the population of Paris live together without marriage."

It is announced by papers pretending to speak by authority, that Amos Kendall is to be postmaster General under Polk's Administration. His political character and the peculiar situation which he has heretofore occupied with the party, qualifies him pre-eminently for the post.

☞ After the election the facts of dishonest party movements very often come to light.—Thus the New York Plebean acknowledges that "in some parts of Pennsylvania the friends of Gov. Polk practiced dishonesty, and represented him as friendly to the Tariff of 1812.

The Savannah Republican runs up the names of Clay and Frelinghuysen as candidates in 1848, or rather refuses to take down their names.—This is good grit.

☞Many of the Locofoco counties in Pennsylvania polled more votes at the recent election than there white male inhabitants in them at the last census. Pennsylvania does quite well for locofocoism, but she can't come up to *Louisiana*.

☞ The ladies of Richmond, Va, are about *to erect a statue to the* Hon. Henry Clay.—His is

"One of the few immortal names,
That were not born to die."

The Church of England has expressed herself ready to co-operate with the Episcopal Church of this country in the establishment of a Mission in China. Three thousand dollars have been appropriated for the salary of a bishop there.

The English have sent ships to Africa to discover veins of copper, lead, Iron and gold,—Each ship is provided with a practical, chemist.

An exchange says that it is no sign because a man eats frogs that he can jump over a six foot fence, or because he dines on snails that he travels slow, Appearances are deceitful things.

☞ It is a solemn truth that the generality of men employ the first part of life in making the remainder of it miserable.

It is Time to Awake!—A writer in the Newark Advertiser, thus presents in a forcible manner some important and interesting facts connected with the influence of foreigners at our elections:—

"When I *look* at the country, I feel alarmed for her welfare; not so much because James K. Polk is elected and Henry Clay defeated, as because it is manifest there is an element at work in our Republic, which may ultimately destroy it. I mean the element of foreign influence. It is even now a powerful element, and daily becoming more so.

Look a few *facts*. 1. Immigration. Here is the foundation of the evil. For the last ten years, about 150,000 have annually reached our shores from foreign lands, making in one decade one million and a half. To New York alone there were 13,896 alien passengers, during the month of June last, 7651 more than in June '43. Out of 200 000 now annually arriving amongst us, 150,000 are Romanists, most of whom can neither read nor write, one half of whom cannot speak our language; Now whilst among these there are many reputable persons, the large majority are utterly unable to rule themselves and wholly unfit to take part in the government of a Republic, and not a few are criminals who have been let loose upon us without any passports from their own government.

2. Naturalization. The mere immigration of foreigners might not, itself, be so great an evil, yet when that is followed by a hasty naturalization, the evil is one of immense magnitude. Who are naturalized among us and admitted to all the cherished *privileges of a free* born American citizen? All, of every grade, from all foreign countries—not even are criminals excepted. And whilst Native Americans guilty of certain crimes, are disfranchised, those of other lands, living among us, stained with the same crime, are hastily inducted into all the immunities of citizenship, and express their will at the ballot box:

When are they naturalized? Generally preceding important elections, in order to overcome majorities of our own citizens? How? By manoeuvres and abundance of false swearing, enough to make the land mourn, and call down the vengeance of Heaven.—In what numbers? Not less than 2000 annually, for 30 years past, in New York city alone, and some 5000 within a few weeks last part. The very recent naturalizations have been so numerous that, unless native Americans of all parties will unite to stay the evil, the city of New York will, at the next election, be under the sway of ignorant foreigners. Already in Cincinnati, half of the voters are naturalized foreigners; **and** enough are made citizens to constitute *two states*. How long, at this rate before we shall be *in the minority*, and find ourselves subject to those who say, '*Americans shan't rule us*', and proclaim themselves 'born to be masters?'"

A great Speech.—The greatest speech on record is the following, describing the destruction of a meeting house by a flood:

'A few short weeks ago, and you saw the **stately** meetin'-house towering up in your midst like *a granny dear in a corn field*. Now none so poor as to do it reverence. It has gone the way of all flesh. The mighty torrents descend from the eternal clouds; the air was filled with cries of despair; the river ran over and swelled—the mighty building creaked, shook, rose up on the surface of the water, *and walked* like a world in *mintoor* down the vast expanse, carrying with it an old pair of boots that I had left in one corner of our pew."

☞ It is said that Joe Cooke is dead.

From the St. Louis Organ.

The Deserted.

BY JOHN P. SHANNON.

Our Eden home is desolate,
Its halls are sad and lone,
The serpent's whisper o'er its flowers
Has breathed its venomed tone.

We deemed that happy Paradise,
In after years would be
A home of sunny days and hours
Devoid of misery.

We cherished well one tender bud,
Of all our gay parterre,
In hopes 'twould bud and bloom and blow
Amid joy's perfumed air.

But o'er it hung a shadowy branch!
An Upas tree was near!
Our sunflower turned from love's warm ray,
Though all the skies were clear.

And bent it towards the poisoned stem
Whose office was to kill—
Joy offers out its sparkling cup
And tears the goblet fill.

Had we not twined with tender care
A sun ray wreath of love,
A trellised bower of friendly hope
That budding rose above.

We might have seen without a sigh,
The green and loathesome snake
Wind round its leaves, and traitreusly
Its heart's own branches break.

But now 'tis o'er—the barrier's broke—
The hazard d e is cast!
In the hours of future friendly years,
We bury deep the past.

But hand in hand like brothers,
And heart to heart we'll go
Adown life's yet unclouded slope,
Albeit our steps be slow.

We've forged a chain of friendly links
Whose bonds can ne'er be riven.
Thus bound, we roam the faithless earth
Thus, brothers, enter Heaven

We have no room for vain, sad sighs—
We banish sob and tear—
Our mutual wrongs have made us to
Each other doubly dear.

We're sworn upon our fearless hearts,
To set our spurning heel
Upon the crawling reptile's crest
Who turned our heaven to hell

"THE CRISIS!"

EXTRACTS CONTINUED.

Foreign Immigration.—The exciting cause, the moving and ever active impulse to moral and political evil in our country, is *foreign influence*; an extraneous and unnatural fungus that has continued to drift in detached masses across the Atlantic from the rotten and tyrannical governments of Europe, the corrupt and wretched stews, pauper houses and prisons of overburdened and decripid trasatlantic monarchies. Thus urged forth and over upon our broad and virgin shores by the fermenting elements of moral and political corruption, it has, like an unnatural and deadly virus infested our whole body politic,—Like all foreign matter, incapable of assimilation and promotive of preternatural and inflamatory action, when taken up and circulated through the *physical system*, as with canine virus, it has rapidly diffused itself through the body politic and moral; and, as with that poison, it fearfully exhibits itself in spasms and death. Let the late scenes in Philadelphia picture to the mind an apt, a forcible, an awful illustration of this truth—the primary cause, the premonitory convulsions, and the inevitable result!

* * * * *

The arrivals into the port of New York for the last 14 years with a part of the present, is as follows, according to the data of the Custom House and the Mayor's Office; though it is known to us that a great discrepancy exists, and also several thousands should be added annually for those coming in vessels less than 40 tons, those coming through New Jersey, some of the Eastern States and from Canada:

1830	30,224	1834	48111
1831	31,729	1835	35,308
1832	48,589	1836	60,451
1833	41,752	1847	53,800

To the above account may be annually added for those coming to this city, otherwise than reported, at least 8,000; for we find, during years past, a difference of this number between those reported at the Custom House at the Mayor's office. There were 12,895 alien passengers, to this port, during the month of June last, which is an increase of 7,645 upon the same month last year. During the quarter ending June last, *there were brought to this port* 25,008—a large increase upon the same quarter last year. In the mean time, 8,827 had arrived at Quebec: 8,000 have arrived in one week, 3,000 within 12 days, and 1,000 before breakfast. It may be fairly estimated that of the 20,000 now and within two or three years annually immigrating to this country, 150,000 are Roman Catholics—that near that number are unable to read or write, and that half the number, or 75,000, cannot speak our language! The late Secretary, Mr. Upshur, says that, from 1835 to 1839, 24,507 immigrants from Batavia, not one of whom of course, could speak our language; nor can 1 in one thousand of all the Germans that flock here. And he says also that, 5,047 "got off without passports," or, in other words, were felons, murderers, or other criminals. The reduction of the tax from one dollar to 25 cents on alien passengers into this port, made a difference in the Hospitable Fund of $26,331 in six months last year: — so that as Governor Bouck says, no "part of the appropriation contemplated from the fund can be paid." Prior, to 1830, all passengers were estimated; but since only alien passengers.

Immigration.—The New York Express gives a table of the number of immigrants into this country and Canada from Great Britain alone, during thirteen years preceding 1842. The great mass of the immigrants into Canada cross the frontier and come into the United States—The total into Canada was 321,809, into the United States, 317,632; being an average of about 54,000 a year into the two. Since that time, however, 1841, the immigration has largely increased. It will be, borne in mind that this statement only includes immigration from Great Britain. As the largest proportion by far is of men, it is not unfair to estimate four-fifths as males, or about 40,000 a year Of these probably 20,000 are naturalized every year; so that each one may be enabled to judge for himself of the immense influence these individuals exercise in a short time over the *destinies of the country*.—*Cleve. Herald.*

Maryland state stocks fell six per cent within one week after the news of Polk's election was received.

A Card.

Resolved, That, the thanks of the Corporation of the town of Milwaukie, be, and the same are hereby tendered to the Captain, Officers and members of the Milwaukie Fire Compaby, No. 1, for their efficient and manly efforts in subduing the fire at the dry kiln of W. Woolsey, whereby they prevented a general conflagration of the fine row of building and machinery adjacent to it on the canal; also for similar services rendered at the time when Perkins' board kiln was burnt.

Resolved, That, as an additional testimonial of the approbation of the people of the West Ward, an appropriation be, and is hereby made of fifty dollars, payable out of the funds of said Ward, to Capt. Soggs, on behalf of himself and the gentlemanly officers and members of his Company for their valuable services at the said fires. By order of the Board of Trustees,

CHAS. C. CAVAGE, Clerk.

Corporation Clerk's Office, Milwaukie. 1844

City Notice.

The people of Milwaukie from both wards and from Walker's Point are requested to meet at the Court House on Saturday evening next, the 21st inst., at *half-past six o'clock precisely* to take into consideration the propriety of adopting, and of petitioning the legislature to grant a City Charter.—A general and full attendance is respectfully solicited.

SEVERAL VOTERS.

Milwaukie, Dec. 14., 1844.

The True Doctrine—A contempory speaking of an alteration in our naturalization laws, well says:

"We desire particularly to impress the fact upon the public mind, that the principle of opposition *to improper foreign influence in our* elections, is as strongly advocated by the best informed and most worthy naturalized citizens whose hearts and interests are all enlisted in the prosperity of the country, feel as deeply concerned in its correct decision, as those who were born upon the soil."

Effects of the Election.—The new Factory which, under the prospect of a stable governmental policy; six weeks since had been commenced in the village of Ketch Mills, about 12 miles from this city has been stopped, and all the workmen discharged. "*Hurrah for Polk and Dallas* Shout louder ye Laborers who voted for Texas and Free Trade!

Another Factory which is being built in this county the owner will stop as soon as it is roofed. Several of the workmen *have* consequently been discharged. The remainder will also be, in a few days. *Nine cheers for Polk and Dallas.* Thus Democratic Workingmen, have you put down the "monopolists" and "lordly manufacturers," who give you the privilege of *earning*, instead of begging your bread—and with the same blow, you have also put down *yourselves*—*Hartford Jour.*

A little reflection must convince every body of the truth, contained in this remark. The brute creation seem to know it by instinct. When they are afflicted, they eat freely of some particular plant or herb, and are at once relieved.
